

## Conventional Hydraulic Oil

**IRANOL 10** is produced using paraffinic base oil from the fractional distillation of crude oil and appropriate additives with the ability to lower the pour point.

### ► Performance Levels

- API SC/CC
- DEF STAN 91-43

### ► Applications

- Suitable for use in static hydraulic systems such as simple lifts.

### ► Advantages

- Anti-wear properties.
- Protects against corrosion and rust of parts.
