

Parcool EG

Engine coolant

Atlas Copco's Parcool EG extended life coolant is designed to meet the needs of modern engines. Parcool EG can help prevent leaks caused by corrosion. Parcool EG is also fully compatible with all sealants and gasket types developed to join different materials used within an engine.

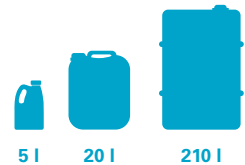

- Premixed solution
- Best engine protection
- Assured quality
- Assured reliability
- Extended lifetime

Performance:

Performance	Unit	Value
Density at 20°C	kg/dm ³	1.12
Boiling point	°C	169
Ethylene Glycol % min		93
Freezing point	°C	-40

Capacity:

	Capacity	Part number
5 l Concentrate	1.32 US gal	1604 8159 01
5 l	1.32 US gal	1604 5308 01
20 l	5.28 US gal	1604 5307 02
210 l	55.48 US gal	1604 5306 01

Equipment:

Atlas Copco portable compressors, generators, light towers, pumps.

Service intervals:

Every 5 years or based on condition (see user manual)
