

IRAOL AW is produced using high-quality paraffinic base oil, derived from the distillation of crude oil, and suitable additives.

► Performance Levels

- API GL-3

► Applications

- In all non-automatic gearboxes and axles of semi-heavy vehicles that operate under moderate conditions in terms of speed and load.

*** NOTE: this product is not recommended for use in gearboxes with hypoid gears.**

► Advantages

- High protection against wear.
- Protection against corrosion and erosion resulted in increased service life of gears and bearings.
- Proper lubrication with resistance to channeling at low temperatures.
