

IRANOL CAMA is a combination of mineral base oil, calcium thickener, and appropriate additives, designed for various general application and lubrication of different machinery.

► Performance Levels

- **INSO 142-1**

► Applications

- Lubrication of chassis and water pumps in vehicles.

► Advantages

- High resistance to water washout.
- Operating Temperature Range: -20°C to +120°C.

Characteristic	NLGI 2	NLGI 3	Test method ASTM
Thickener base	Calcium	Calcium	D-3340
Free Acid as Oleic Acid, Wt%	0.5	0.5	D-128
Free alkalinity as Potassium Hydroxide, Wt%	0.1	0.1	D-128
Dropping point, °C	95	95	D-566
Number of hard particles	40	40	D-1404
Worked penetration @ 25 °C, 0.1 mm	265-295	220-250	D-217
Copper strip corrosion @ 75 °C(24 hours)	1a		D-4048
Corrosion prevention property @ 52 °C, 48 hours	PASS		D-1743
Water washout resistance @ 39 °C, Wt%	1	1	D-1264

Typical physical characteristics

* Packaging

- Container 10 lb
- Container 35 lb
- Drum 180 kg
